QUALITY GARAGE DOORS

SECTIONAL AND ROLL-UP GARAGE
DOORS AND DIGI AUTOMATION

Introducing the complete quality garage-door solution

Hydro garage doors and Digi automation have been synonymous with quality, reliability, attention to detail and superior finishes since 1983.

We offer a full range of quality doors, motors and spares to suit your needs through **SBS** branches nationwide, supported by our national after-sales service.

CONTENTS

STEEL SECTIONAL GARAGE DOORS	4
STEEL ROLL-UP GARAGE DOORS	6
WOODEN GARAGE DOORS	8
ALUMINIUM GARAGE DOORS	10
DIGI AUTOMATION RANGE	12
INSTALLATION REQUIREMENTS	14

We're committed to developing artisans through ongoing education and training, and we also offer leadership and skills-development programmes in our local community to help reduce unemployment.

Hydro is the only end-to-end garage-door manufacturer in South Africa with a national footprint that specialises in doors, automation and spares to suit.

AVAILABLE SIZES:

Single doors

2440 x 2130 | 2440 x 2556 | 2440 x 2400

Double doors

4880 x 2400 | 4880 x 2130 | 4880 x 2556

STEEL SECTIONAL DOORS

STANDARD SINGLE SKIN DOORS

We're proud to say that our steel sectional garage doors have been described as 'over-engineered' or the 'Rolls-Royce' of garage doors, with key features such as 'true' anti-pinch hinging.

Anti-pinch hinging

The superior engineering of our sectional doors makes them one of the finest available. The value for money you get is unmatched.

STANDARD COLOURS

Rustic Bark Snow White Chalk Thunderstorm

Colour samples are a guide only, and may not match actual product.

- True anti-pinch door and hinge technology
- High-quality AZ150 steel panels
- Top-quality hinges and hardware
- Superior spring design (min. 10 000-cycle lifespan)
- Pre-punched mounting holes for simple assembly
- Custom sizes and colours available

FOAM-FILLED DOORS

- Double skin for strength and security
- Thermal efficiency – cool in summer, warm in winter
- Vibration-absorbing – smoother and quieter operation
- Proprietary hinge technology for durability
- Smart-looking from the inside, and easier to keep clean

STANDARD STYLES

RAISED-AND-FIELDED PANELS

LINEAR/FLUTED FINISH

STEEL ROLL-UP DOORS

Hydro steel Roll-Up doors are stronger and more durable, with a design superior to most doors on the market. Made from high-quality, corrosion-resistant 0.4mm Aluzinc, our doors include a unique 'roll-over lip' built into the tracking that makes them significantly stronger in heavy wind, and prevents intruders from bending the bottom open.

All Hydro steel roll-up doors and can be automated with ease for added convenience and security.

Our roll-up doors boast quality features, are easy to install and can be adjusted for larger opening heights by simply increasing the length of their tracks.

AVAILABLE SIZES

2500 x 2100 | 3000 x 3000

Hydro roll-up doors are fully encased when closed, making them more attractive, durable and reliable.

Our doors are fitted with a high-quality, double-throw lock unit, made with a 10mm round steel tube, instead of the thin flat bar commonly used on lower-cost doors.

This makes the lock durable and more reliable, with improved security.

FEATURES

- Woodgrain textured 0.4mm Aluzinc
- High-quality long-life counterbalance springs
- Heavy-duty aluminium bottom rail
- Double-throw lock

WOODEN DOORS

Wooden garage doors add beauty, elegance and sophistication to your home, and enhance its kerb appeal and value – especially if you already have wood-frame windows and doors.

Wood is resilient: it does not dent or bend easily, and – if taken care of properly – it will stand up to the elements. As a renewable resource that lasts, it is becoming the material of choice for garage-door buyers who take sustainability seriously.

Choose raw wood and finish it yourself – or buy your door pre-sealed in a Teak or Imbuia finish.

Our doors are pre-sealed with German-engineered, water-based sealant Maxicare – which, together with their durable construction, ensures long-lasting beauty and performance.

STANDARD TINTS

Teak

Imbuia

Colour samples are a guide only, and may not match actual product.

AVAILABLE SIZES

2440 x 2130 | 4880 x 2130

There is no better choice than Swartland – we have been making quality wooden doors since 1951.

- Single and double doors available
- Raised-and-fielded or slatted styles
- Available in either raw wood or pre-sealed in a Teak or Imbuia finish
- Can be bought separately or as part of a full kit, which includes the door, all hardware and motor

STANDARD STYLES:

RAISED-AND-FIELDED PANELS

LINEAR/FLUTED FINISH

ALUMINIUM DOORS

Hydro aluminium doors are available as single and double doors.

Our aluminium doors are:

Lightweight. This makes opening and closing them smoother, because there is less tension on the opener, springs and other components. They can also be opened easily during a power outage.

Durable. Because aluminium is corrosion- and rust-resistant, it can withstand harsh weather conditions, such as those prevalent in coastal areas.

Easy to install, clean and maintain. Aluminium doors require very little maintenance to keep their aesthetic appeal.

Environmentally friendly and 100% recyclable.

Affordable. Aluminium offers budget-friendly style, performance and kerb appeal.

Versatility. Available in a range of contemporary powder-coated colours, our aluminium doors will fit the design of your home or office.

AVAILABLE SIZES

2440 x 2130 | 4880 x 2130

STANDARD COLOURS

Bronze

Charcoal

White

Silver

Digi automation solutions for sectional and roll-up doors

DIGI ONE

Featuring powerful lifting capacity, this reliable and affordable automation system is ideal for all types of sectional garage doors.

It comes standard with two Digi-E-key transmitters (with secure Keeloq® technology), as well as electronic obstacle sensing and manual override.

Automated doors are controlled using a remote transmitter, for both personal safety and convenience.

DIGI 7

This roll-up door automation system is easy to maintain and boasts several class-leading features:

- Automatic closing function
- Maintenance warning alarm
- Battery backup
- 'LED off' delay time setting
- Soft-stop function during operation
- Cycle counting display
- Adjustable speed

Control your DIGI 7 motor from just about anywhere with its WiFi connectivity function.

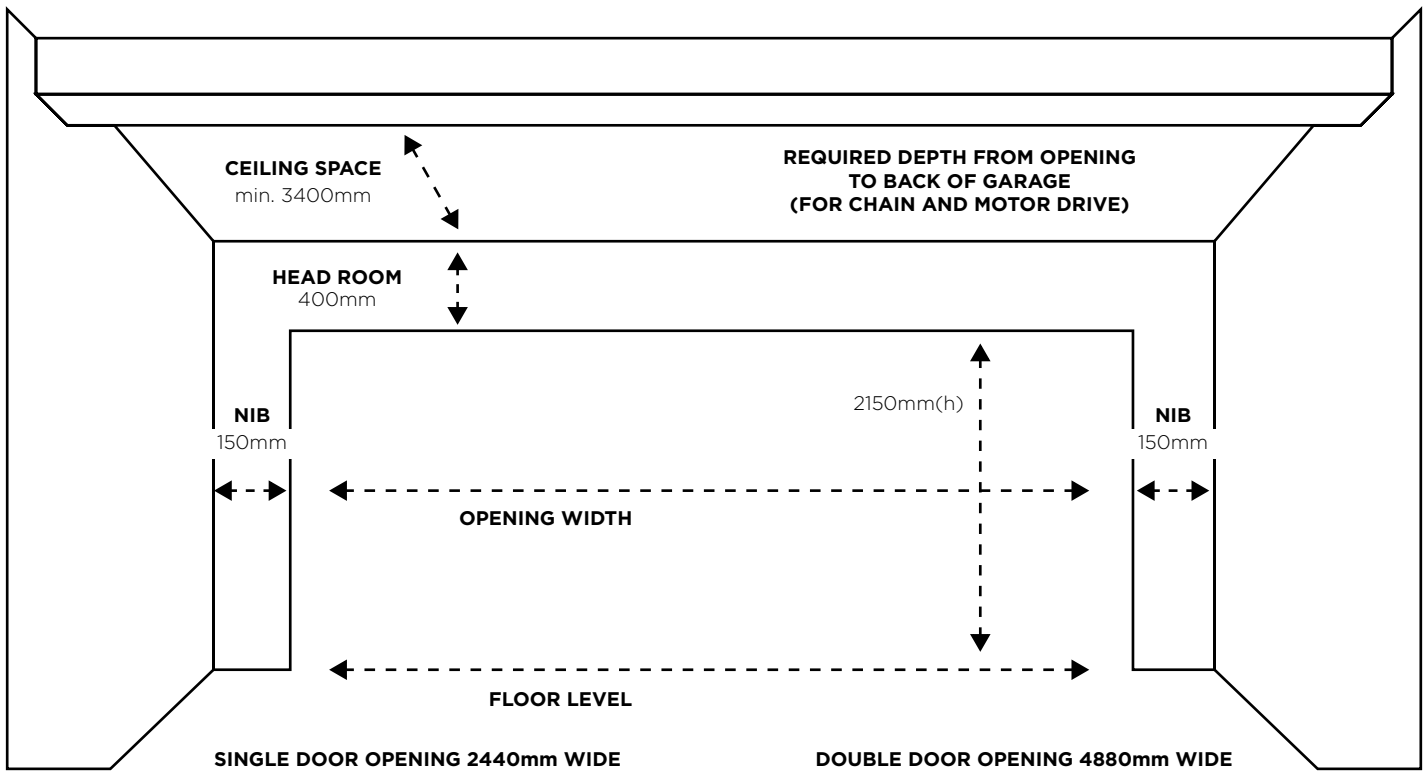

DIGI 6

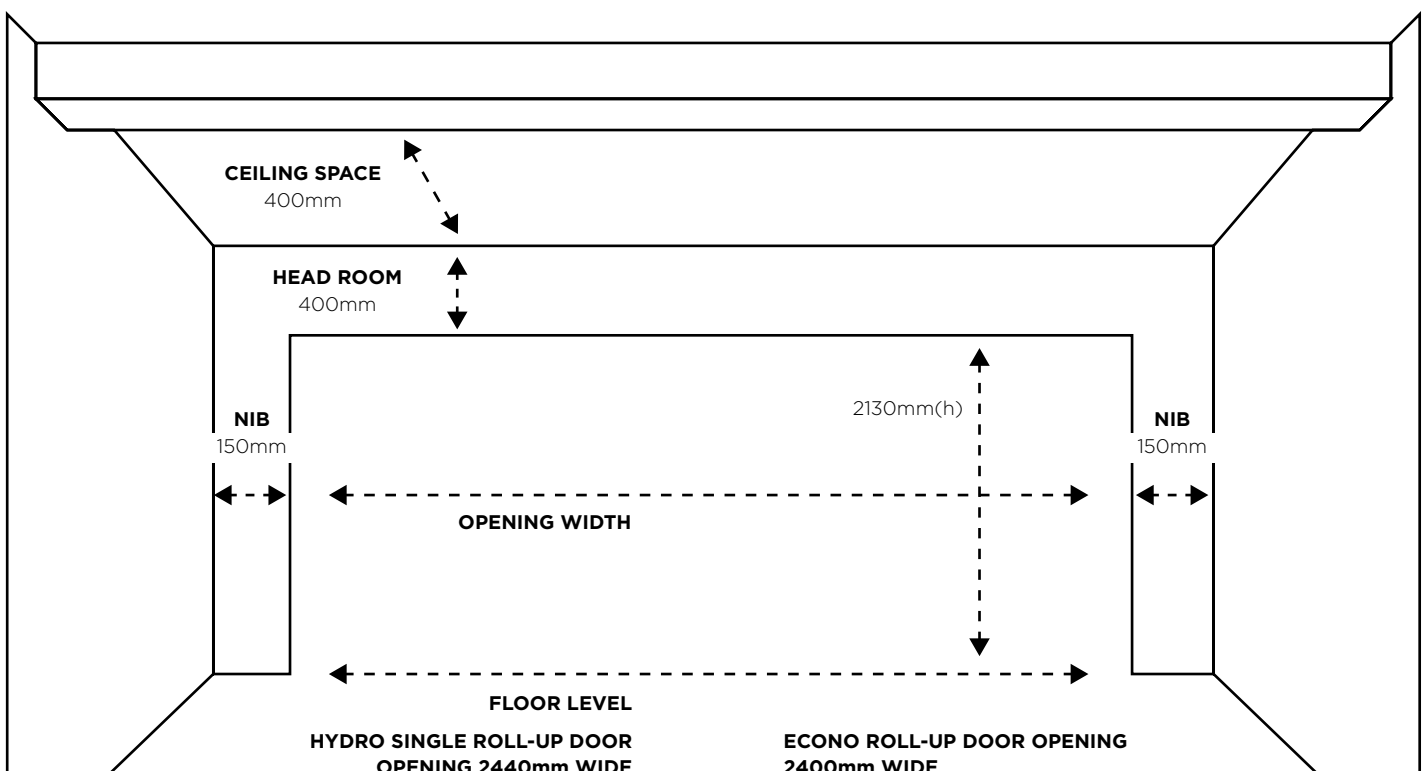

Digi 6 is versatile and easy to maintain, and boasts several class-leading features:

- Powerful and economical 24Vdc/600N motor
- Dual-sensor position sensing
- Simple to install - parts and accessories included
- Quiet and reliable operation
- Bright LED light with low power consumption
- Hydro reliability and product backup
- Includes 2 x E-Key code-hopping remote controls
- Advanced adjustable obstacle-sensing technology
