

QS

### **MØRK**

*(adj): dark: having an absolute or relative lack of light*

QS offers a comprehensive matt black product range for the exclusive project. Powder coated to the highest standard, our range is deep, dark, and modern.

Launching from our lever handle offering, we have included plates and escutcheons to pair with your handles.

To compliment this, pull handles, accessories and door closers supplement the range to ensure your entire project gets the matt black treatment.

Just ask for **matt black** when placing your order.
